1993년 English Ideas for Last Make-Up

The history of English Ideas began in 1993 in the kitchen of an English doctor, Dr. Pflueger and his wife. In the August 10, 1998 interview at Irvine Spectrum, where the main office of English Ideas was located, Rebecca Pflueger, the CEO of English Ideas, talked about how English Ideas' Last Line product was born.

"Russell, my husband, was a scientist and he just could not stand my lipstick marks on glasses and mugs whenever he was drinking something. So, one day, I told him. "Darling, then give me something that would leave marks on my lips, not on mugs!"

- Irvine Spectrum News, August, 10-14, 1998, by Debbie L. Sklar -

EI Solutions Product

EI Solutions is a Last Make-up product designed for fashionable modern life style. It is a professional make-up product for comfortable and healthy skins that give you a feeling of the first make-up. EI Solutions is being sold in luxury department stores like Sephora and Dilard's in the US, and is an internationally recognized brand that competes shoulder to shoulder against other prominent brands in the world. Its dermatotropic plant ingredients reduce skin troubles and it is a cosmetic solution product with a new treatment concept that solves your skin problems at a fundamental level.

CLEANSING

El Solutions has weak amino acid face-cleansing elements that contain natural anti-trouble factor and NMF (Natural Moisture Factor) that strengthens moisturization.

Comfort Cleansing Lotion 300ml/1000ml

A cleansing lotion for all skins that gives you fresh and moisturized feeling to your skin by removing make-ups without causing irritation.

- Usage : Apply the product according to your skin's need. After rubbing it gently on your face, remove it using warm water.

Perfect Finish Cleansing Oil 250ml

A plant-oil type cleanser with low irritation that removes residues on your skin and gives your face a stabilizing effect. It can be used for a point make-up as well.

- Usage : Apply the product according to your skin's need. After rubbing it on your face, remove it clean using warm water.

Comfort Cleansing Foam 150g

A foam cleanser that cleans your skin fresh.

- Usage : Apply the product every morning and evening. Take appropriate quantity of foam on your palm and rub it on your face by light massaging. Remove it clean with warm water.

Comfort Cleansing Gel 150g

A gel-type 1st cleaners for sensitive and dry skins.

- Usage : Apply the product according to your skin's need. After rubbing it on your skin, remove it clean with warm water.

Purifying Cleanser 250ml

A gel-type 2nd cleanser. It purifies your skin by exfoliating and returns your skin to normal.

- Usage : Apply the product every morning and evening. Take off an appropriate amount on your palm and make enough foams. Rub it gently against your face in light massaging. Remove it clean using warm water.

Everclear Bamboo Cleanser 80g

A scrub product that effectively exfoliates your face and body and makes it easier for absorption in the next phase.

- Usage : Usage: Apply an appropriate amount to a wet face and rub it gently as it massaging. Remove it with warm water.

Everclear Enzyme Mask 200ml

A mask-type dead skin remover. The enzyme extract absorbs unwanted sebums in pores and provides refreshing feeling and smooth skin.

- Usage : Remove water after cleansing and apply an appropriate amount to face other than eye areas and lips. Depending on conditions of the dead skin, wait for 5 minutes, remove it with warm after rubbing.

Science Beta Peel 100ml

A multi-purpose, water-type deep cleanser that suppresses formation for melanin and remove dead skin. Contains AHA and morus bark extract.

- Usage : After cleansing, remove moisture and spray it to entire face. Rub it as if massaging and remove it with warm water.

Basic Care

Keeps your skin moisturized and smooth by vitalizing your skin and improving your skin's moisturizing potential by maintaining skin's homeostasis and providing moisture.

Cell Nutrition Solution (+), (-) 130ml

A mist type solution that facilitates absorption of dead skin by reducing resistance of skin's moisture blocking membrane through alternate injection of (+) and (-) solutions. Setting isoelectrical point enhances excretion from internal skin.

- Usage : After washing face, apply (+) and (-) solutions evenly across your face for once. Pat it gently to let it absorb.

Nutrition Eye e Serum 40ml
